### Experience Holistic Education

Purpose of Learning- both utilitarian and aesthetic perspectives, think beyond “applications”

Inter-disciplinary Learning- where world is not broken down into subjects

Academic Rigorous- where every argument/assertion is carefully probed

Evolve Worldview- changing the way a student understands the world

Larger Context- the ability to recognize the larger context around a situation

Extrapolation- of known ideas/concept to newer contexts

Strategy- leveraging known experience to devise new strategies

### Competition

Building on well documented procedures, students would design their own experiment and their research shall hopefully culminate in an interesting research paper, which would be showcased to government officials and domain experts, at a Sciensation Socratic Dialogue.

- Selected students compete against college students
- The competition shall be judged by reputed researchers and industry professionals

### Legacy

- Sciensation’s work has been applauded by researchers from institutions like IISER Pune, IIIT Hyd, TISS Hyd and several reputed school principals
- Indian Academy of Sciences Confluence published- “War against Automation”
- IIIT Hyderabad STEP Programme had Sciensation as a knowledge partner. A Socratic Dialogue on Philosophy of Mathematics was organized
- 4<sup>th</sup> /5<sup>th</sup> graders of The Shriram Universal school presented Evolutionary Design Thinking projects to industry professionals and researchers from Univ of Hyd and IIIT Hyd after Sciensation’s weeklong programme for the students.
